These will be to maintain and support existing projects, as well as new projects where you will take full ownership as to the scope and output.

Responsibilities:

- The processing of customer data and producing actionable reports required for loading products into variation destination platforms
- Generating reports based on the alerts within the CrescoData Management Portal to produce meaningful reports that are actionable by customers
- Standardised internal reporting metrics across teams.

Skills and Qualifications:

We'd like you to have the following skills:

- Has or currently studying a Bachelor of Computer Science
- Experience with APIs.
- Python understanding is advantageous.
- An advanced understanding of Excel.
- Has strong analytical skills with an eye for detail.
- Fast learning with the ability to pick up technical concerns quickly.
- Some understanding of machine learning.

Personal Skills:

- Highly organised
- Fluency in English
- Adaptable
- Self-starter
- Inquisitive nature who can logically troubleshoot problems
- Driven to make a difference and improve processes
- Good communication, self management & teamwork skills
- An interest in Tech & Digital is preferable

What we can offer you:

- A unique opportunity to work in a high growth start up at the start of its massive ramp up. Opportunity to grow with us!
- On the job training and personal development
- Mentorship and support from experienced, dedicated professionals to help guide your career
- A fun, stimulating work environment
- Flexible working
- Regular team building events (we've been on Cooking Challenges, Kayaking in Bintan, Beach clean with beach games), free Wednesday lunch, free weekly bootcamp and free Friday drinks!

Please send your CV, a covering letter outlining your experience and why we should pick you, to jobs@crescodata.com
