

Angular Developer

CrescoData is an exciting market leader in the Commerce space. Headquartered in Singapore, it delivers Commerce-in-the-Cloud services to enterprise customers across the globe.

This is a unique opportunity to work in an agile market-leading company in a fast growing sector and work with large global customers. At Cresco we work hard as an energetic tight-knit team, we are hustlers who pull together and have FUN! Come and join us on our journey.

Culture

Culture is something that is really important to us at CrescoData. You'll be joining a friendly, inclusive team that values people, growth, development and fun! We regularly run weekly company initiatives like fitness bootcamps, team building days, monthly awards for going above and beyond and team events to reward hard work and a great attitude. Expect to join a unique market leading Singapore company with a global culture and mindset.

The Role

We are looking for an Angular Developer to join our development team to take ownership of our growing Branded Portal solution set. This is a great opportunity to take ownership of a tech stack, while looking for constant improvements in efficiency and scale. As well as developing a high level understanding of The CrescoData Tech Stack and associated commerce ecosystem this role requires a logical and inquiring mind as well as the ability to solve problems to a logical outcome.

All components run on Amazon AWS, this position will provide great exposure to cloud based technologies and provide an opportunity to work on many components of a platform.

Responsibilities

You will take ownership of scaling of Branded solution, while improving the current foundations. This coupled with the development of new channel integrations, if required. Some common task will include:

- Creation of new Branded Portals
- Updating of front end based on Branding requirements.
- Configuration of settings, based on customers defined needs.
- Working with APIs to integrate new channels such as eCommerce platforms and Marketplaces

Skills and Qualifications

We'd like you to have the following skills:

- Bright, fast-learner and keen to work with new technologies
- Good communicator
- Team player
- Desire to be mentored and learn from the team
- Degree qualified

In addition, the following skills would be useful:

- Internal Product tools - CrescoData Management Portal
- Python
- Jira / Atlassian
- Knowledge base
- IDE (JetBrains)
- AWS
- Documentation tools

The successful candidate will have these personal skills:

- Dynamic and self-motivated and able to work in a start-up environment
- A certain degree of creativity and latitude required, likes problem solving, typically reports to a project leader or manager.

CrescoData offers

- A unique opportunity to work in a high growth start up at the start of its massive ramp up. Opportunity to grow with us!
- On the job training and personal development
- Mentorship and support from experienced, dedicated professionals to help guide your career
- A fun, stimulating work environment
- Flexible working
- Regular team building events (we've been on Cooking Challenges, Kayaking in Bintan, Beach clean with beach games), free Wednesday lunch, free weekly bootcamp and free Friday drinks!

Please send your CV, a covering letter outlining your experience and why you are the best person for this role; to jobs@crescodata.com
